## Public Attention Now Centered on the Crops.

Every part of the United States reports a larger volume of business than last year and no lack of confidence in that of the near future.

In the City of New York there is dullness and low prices in the stock markets, there is a lowering of rents in the downtown skyscrapers, largely the result of the dispersion of the stock brokers, consequent to the dull check in planning of many more skyscrapers for future construction, but security markets; there is also a despite these the value and volume of current business in New York is at maximum figures.

The South, the Far West, the Middle West, the North Atlantic States, as well as those of the South Atlantic, all report business very great in this year, which is but one of a series of years of vast business.

The political campaign of last year was waged on such independent lines and carried on with such freedom from political antagonism, with such lack of political prejudice, with such unity of sentiment as to revision of the tariff, that the bill as it appears creates little or no surprise, and with those who disapprove its changes.

In brief there is little or no shock to business in the proposed tariff legislation of the present Congress.

The public mind was prepared for its presentation, so, even if not received favorably by the country when the bill is completed, its effects will not be provocative of any business depression of any marked degree.

The public's attention for the coming three months will be more centered upon the conditions of the crops of the country than it will be upon the tariff schedules.

The crops of 1912 were of immense value directly to the farmers and of equally great value indirectly to the entire people of the United States.

With the huge aggregate transactions of this month of May bidding fair to maintain their proportions well up to the time of the wheat harvest, and its prospects now such as to give hope for a record-breaking return of grain, it is possible that if the other important crops are well up with those of last year the people of the United States are in for the most prosperous year of the national history.

Given good crops, the existing conditions will produce a combination for the largest domestic and foreign trade the country has ever had.

## Grass Seed Sales.

Buyers have been exceedingly active during the past few days buying up the bluegrass seed crop in Bourbon county, and it is said that half of the standing crop has been sold.

The crop, which is estimated at from 200,000 to 250,000 bushels, in this county, will be stripped from an acreage not in excess of 45,000. Experienced seed men claim that crop is the highest for several years, and good prices are sure to follow.

Nearly all of the purchases of seed have been by the acre, only a few cases having been reported where the seed was bought by the bushel. If the weather remains good the seed strippers can be started by the middle of the coming week, and by Friday the harvest will be well under way.

The following farmers have disposed of their standing seed in the field, the buyers to strip and handle same at their own expense:

Mr. Lewis Rogers bought the seed from the large farm of W. T. Buckner, comprising about 2,500 acres, on the Harrod's Creek pike.

Messrs. Caldwell & Miller bought the seed from the lands of Mr. Thomas Henry Clay and sons, on the Winchester pike, comprising about 4,600 acres, at the reported price of \$3.35. The same firm also contracted for the Clay lands for the years of 1914 and 1915 on a percentage basis.

Mr. Wm. Woodford sold his standing seed, on the Winchester pike, consisting of 850 acres, to Caldwell & Miller. Mr. Woodford Daniel bought Mr. John Redmon's seed, from 135 acres, on the Jackstown pike.

Mr. Marion Hall bought the seed from 100 acres of land from Mr. William Hall.

Mr. J. Elmer Boardman bought 500 bushels of stripped seed from Mr. Logan Bryan, of near North Middletown, at 75 cents per bushel, the delivery to be made in August.

Mr. Samuel Clay has sold his seed from 1,000 acres of land on Cane Ridge to Messrs. Brent & Burke.

Mr. A. B. Hancock sold 800 acres of standing seed to Messrs. Brent & Burke.

Messrs. Brent & Burke have also made other purchases of standing seed as follows:

From Hon. S. G. Clay, 200 acres on the Maysville pike; from Hon. C. M. Clay, the seed from the lands of his daughter, Mrs. Shackelford, comprising about 400 acres, on Thatcher's Mill pike; from Mr. Thompson Tarr, 200 acres on the Georgetown pike, and from Mr. Frank M. Clay, 200 acres on the Georgetown pike.

Flagged Train With Shirt.

Tearing his shirt from his back an Ohio man flagged a train and saved it from a wreck, but H. T. Alston, Raleigh, N. C., once prevented a wreck with Electric Bitters. "I was in a terrible plight when I began to use them and my stomach, head, back and kidneys," he writes, "were all badly affected and my liver was in bad condition but four bottles Electric Bitters made me feel like a new man." A trial will convince you of its matchless merit for the stomach, liver or kidney trouble. Price 50 cents at Oberdorfer's.
